

BLACK LAKE PRESCRIBED BURN PUBLIC MEETING

Meet with us about an upcoming burn in your area

The Forest Stewards Guild, in collaboration with The Nature Conservancy, Moreno Valley Fire Department – Black Lake Station, Angel Fire Fire Department, and others plan to burn 200 – 500 acres in the next few weeks (weather conditions permitting) on state trust lands near the community of Black Lake south of Angel Fire.

An open-house public meeting will be held on Wednesday September 28th at Angel Fire Fire Department Station #2 on Cabillo Lane from 6-7:30 pm. Come ask questions and learn about the benefits of prescribed fire in *your* area.

If you have questions, please contact Matt Piccarello at 505-470-9725 or matt@forestguild.org. Please visit www.forestguild.org/controlledburning for more information.

Come ask us your questions at the pre-burn public meeting on 9/28!

What about smoke?

What are the benefits of prescribed fire?

How can prescribed fire reduce the risk of catastrophic wildfire?

We will address these questions and more at the Black Lake pre-burn public meeting.

FIRE STATION #2

From Hwy 64: 5.2 miles south on NM 434 and the station will be on your left.

From Hwy 434 south and Hwy 120: Drive 5.9 miles north on NM 434 and the station will be on your right

**September 28th, 2016
6-7:30 pm**
